

# THE TWINS

*Songbook*

## **Hold On To Your Dreams**

You came to me in one of these nights  
And you told me - about your fears  
I tried so hard to comfort you  
But you couldn't hold back your tears  
You told me something about the plans  
That you made - some years ago  
And you found out that it's not so easy  
To get what you want

One more day and you will find  
What it takes to see the light  
One more day and you will see  
What it means and what life's all about

Hold on to your dreams  
don't you remember the things I told you  
Hold on to your dreams  
don't you know how much it means to me

I guess you understand what I mean  
And that you know - I never lie to you  
And if someone won't believe in you  
I'm sure you'll know what to say

One more day and you will find  
What it takes to see the light  
One more day and you will see  
What it means and what life's all about

Hold on to your dreams  
don't you remember the things I told you  
Hold on to your dreams  
don't you know how much it means to me

## **Love Can Change It All**

I just can't take it anymore  
I stay here locked behind my door  
The night's alive with sound and shadow  
But I stay in this one man ghetto  
The only light is on my mind  
I put it there to see what I'd find  
In the struggle of do or die  
There has to be a reason why

Love can change it all  
It's something I feel  
It's something I still remember  
Love can change it all  
It's something I need  
I know we could be together

There is no sense in the day to day  
But we accept it anyway  
In the struggle of do or die  
There has to be a reason why

Love can change it all  
It's something I feel  
It's something I still remember  
Love can change it all  
It's something we need  
Keeping us all together

## **Time Will Tell**

Time was - when time stood still for our rendezvous  
My heartbeat - hit danger-zone when I thought of you  
What we had - felt like an eternity  
And nothing could go wrong - or steal our ecstasy

When you're sleeping next to me  
I'm waiting for the day  
I lie awake and dream of you  
A thousand miles away

So time will tell - and time's never wrong  
So time will tell - but time takes so long

Our time is up - or that's the way that it seems to be  
Your heartbeat - is beating now for your liberty  
What we had - can never return again  
No matter what we do - no matter who takes the blame

I lie awake and dream of you  
A thousand miles away

So time will tell - and time's never wrong  
So time will tell - but time takes so long

## **What Do You Live For**

I only have to hear your voice  
I run for the exit  
Because I know it's leading nowhere  
And nothing can fix it

I must admit that I'm surprised  
How much I used to sympathize  
But now I keep my feelings mine  
I don't want to risk it

I've known all along something's going wrong  
But the time is right to begin the fight

What do you live for  
Why don't you give more  
What are you here for  
Why don't you care more

I hate the way you sell yourself  
You try to impress  
The last few years I spent with you  
Were far from the best  
Your ignorance is not what I mind  
But that you show it all the time  
Why don't we face up to the truth  
that we're in a mess

## **The Price You Pay**

A word's enough to end - a year's communication  
A life surrenders to - a single situation

For what it's worth I'll always wish  
The sound had never passed my lips  
With your finger to my face  
We could have still escaped

But It's the price you pay  
For everything you say  
don't even whisper  
'Cos it's the price you pay  
For everything you say  
It's too late to miss her

The world is going round - this is revolution  
All the changes in the world - can offer no solution

For what it's worth I'll always wish  
The sound had never passed my lips  
And I had never said a word  
Or you had never heard

'Cos it's the price you pay  
For everything you say  
don't even whisper  
And it's the price you pay  
For everything you say  
It's too late to miss her

For what it's worth I'll always wish  
The sound had never passed my lips  
With your finger to my face  
We could have still escaped

And it's the price you pay  
For everything you say  
Well it's the price you pay  
You'll pay it anyway

## **Mighty Shiver**

Then I felt a mighty shiver  
It shook my body head to toe  
It took my mind and shook forever  
I thought it never let me go

And you know I don't ask whether  
I work too hard when we're together  
And you know I won't give in  
Until the last game is up and chances are nil

I feel a mighty shiver  
It grips my mind in a vice like thighs  
I feel a mighty shiver  
I feel fear but it feels so nice

And I feel a mighty shiver  
I take what nature gives to me  
What she asks for I will give her  
I am made of energy

And you know I don't ask whether  
I work too hard when we're together  
And you know I won't give in  
Until the last game is up and chances are nil

## **I'm Waiting For The Night**

So you take me for a fool  
And expect me to play  
But I want to take control  
At the end of the day

Won't you give a sign  
Just a hint from your eyes  
Just enough for my dreams to be realised

I'm waiting for the night  
And for the nighttime  
I'm waiting for the night  
When you'll be mine

And you know that you're the one  
Yet you still hold me back  
But the change is going to come  
When the light turns to dark

Won't you give a sign  
Just a hint from your eyes  
Just enough for my dreams to be realised

## Secret Love

I live my life from nine to five  
Not always sure if I'm still alive  
There's no adventure, no surprise  
No hidden meaning under the disguise

Phone rings at midnight, you don't know who  
Is it really fright or something new  
Knock at the window, noise at the door  
Do you want less or more?

Secret love - I've gotta have some  
Secret love - With you  
Secret love - can't live without that  
Secret love - No more

Deep in the darkness, in the night  
I'm looking for something to excite  
An inspiration, a mystery  
A strange adventure just for you and me

Phone rings at midnight, you don't know who  
Is it really fright or something new  
Knock at the window, noise at the door  
Do you want less or more?

Secret love - I've gotta have some  
Secret love - With you  
Secret love - can't live without that  
Secret love - No more

## Blue Girl

I remember yesterday  
Saw her standing next to me  
I felt like I was in a dream  
Playing in a movie scene

Then she said don't stare at me  
Boys like you will never learn  
When you say that you're in love  
I know it's just another lie

You won't see me  
I can't believe it who's to blame  
You don't need me  
I can't believe it's just a game

Blue girl, oh blue girl  
I know, It's too much to take  
Blue girl, oh blue girl  
I know, I can't stand the pain

Now you keep me waiting here  
With the love I have to give  
Time hangs heavy on my hands  
I don't know which way to go

We were through before we started  
She was acting much to cool  
But I know that she'll be waiting  
She just let me play the fool

You won't see me  
I can't believe it - who's to blame  
You don't need me  
I can't believe it's just a game

Blue girl, oh blue girl  
I know, It's too much to take  
Blue girl, oh blue girl  
I know, I can't stand the pain

## One Day

One Day's a day - when everything goes wrong  
Not like today - not like the rest and not so long

We should never say a word we can't defend  
And if I'm right in my conclusion  
We should stay to the end  
We need something on which we can depend  
And if I'm right about confusion  
We should stay to the end

And I said, one day  
won't you ever wonder what you're living for  
And before you move don't forget, one day  
This heart won't beat no more  
And one day  
We'll be certain what we did this whole thing for  
So before you move don't forget, one day  
This heart won't beat no more

One Day's enough - to squeeze the life from love  
This is the stuff - of which our nightmares are made up

We should never say a word we can't defend  
And if I'm right in my conclusion  
We should stay to the end  
We need something on which we can depend  
And if I'm right about confusion  
We should stay to the end

And I said, one day  
won't you ever wonder what you're living for  
And before you move don't forget, one day  
This heart won't beat no more  
And one day  
We'll be certain what we did this whole thing for  
So before you move don't forget, one day  
This heart won't beat no more

Don't you ever wonder what you're living for..

## **Going through the motions**

I can't believe that it's for real  
I can't believe you told the truth  
It doesn't matter what you feel  
You look too old to play the youth

And so I put the pressure on you  
It's time for you to act your age  
Though I can't tell you what to do  
I can destroy your gilded cage

I want you  
Do you want me  
You know you want to want somebody

We're going through the motions  
I'm living on emotion  
We're going through the motions  
I'm living on devotion

It's not too late to stop the rot  
The time has come to make a stand  
And if I put you on the spot  
I hope that you will understand

## **Wheels On Fire**

You speak of love  
But we all know just what you're after  
You smile shyly  
But your lips weren't just made for laughter

Let's do what the others just talk about  
Give me what the others just dream about  
Let's do what our bodies and minds dictate  
I think you understand that I can't wait

White walls burning  
My wheels are on fire  
Let it burning  
Keep my wheels on fire

You're dressed in black  
As if you're going underground  
You know how much  
I like the way you run around

Let's do what the others just talk about  
Give me what the others just dream about  
Let's do what our bodies and minds dictate  
I think you understand that I can't wait

White walls burning  
My wheels are on fire  
Let it burning  
Keep my wheels on fire now

White walls burning  
My wheels are on fire  
Let it burning  
My wheels are on fire now
