

# THE TWINS

*Songbook*

### **Then We Start Again**

I can't deny you are the one  
Who leaves my mind undone  
You do the strangest things to me  
Just take a look and see

Since the day you're gone  
I can't be sure what I have done  
Should we really be together  
Will this carry on forever

can't seem to make up my mind about you  
can't seem to live here alone without you  
So we start  
And we stop  
But then we start again

I could compare you to the sun  
Your love comes shining down  
But something I have had to learn  
If I come too close I burn

Since the day your gone  
I can't be sure what I have done  
Should we really be together  
Will this carry on forever

can't seem to make up my mind about you  
can't seem to live here alone without you  
So we start  
But we stop  
we're both insane

I can't seem to make up my mind about you  
can't seem to live here alone without you  
So we start  
And we stop  
But then we start again

## **Tonight**

I'm gonna ask you for your love  
I cannot wait for the break of day  
The sun will shine above  
And you will be so far away

Though moments come and go  
I can see - This is the last with you

This is the chance of a lifetime tonight  
Not gonna wait till you're out of sight  
This is dawn of a new day tonight  
Now that the time is right

So in the silence of the night  
We must face up to our destiny  
The stars are shinnig bright  
And you are here in the dark with me

Though moments come and go  
I can see - This is the last with you

This is the chance of a lifetime tonight  
Not gonna wait till you're out of sight  
This is dawn of a new day tonight  
Now that the time is right

This is the chance of a lifetime tonight  
Not gonna wait till the sky is bright  
This is the start of an era tonight  
Now that the time is right

Though moments come and go  
I can see - This is the last with you

This is the chance of a lifetime tonight  
Not gonna wait till you're out of sight  
This is dawn of a new day tonight  
Now that the time is right

This is the chance of a lifetime tonight  
Not gonna wait till the sky is bright  
This is the start of an era tonight  
Now that the time is right

Tonight - The chance of a lifetime tonight  
Tonight - The start of an era tonight

## **Love Is Blind**

You know that I would never claim  
To be the perfect man  
But I could not complain  
About the way I am

Just take me as you see me  
'Cos it's the best I have to offer  
And if it doesn't look like much  
It doesn't really matter

It cannot hurt, To tell the truth  
I really don't mind,'Cos love is blind  
To say the truth, Is not unkind  
I really don't mind,'Cos love is blind

You know that I would never try  
To be somebody else  
And I can't tell a lie  
To you about myself

Just take me as you see me,  
'Cos it's the best I have to offer  
And if it doesn't look like much,  
It doesn't really matter

It cannot hurt, To tell the truth  
I really don't mind,'Cos love is blind  
To say the truth, Is not unkind  
I really don't mind,'Cos love is blind

Just take me as you see me,  
'Cos it's the best I have to offer  
And if it doesn't look like much,  
It doesn't really matter

It cannot hurt, To tell the truth  
I really don't mind,'Cos love is blind  
To say the truth, Is not unkind  
I really don't mind,'Cos love is blind

## **Deep down**

Meet with a stranger  
Do what you want to do  
You know the danger  
Do you enjoy it too?

Here I lie  
A million miles away  
I believe our love will never die  
Anyway

Somewhere in the void of time  
Somehow from the very start  
Somewhere you were always mine  
Deep down in your heart

How hard can hell be?  
Living from day to day  
Don't try to tell me  
Things I can't hear you say

Somewhere in the void of time  
Somehow from the very start  
I knew you were always mine  
Deep down in your broken heart

Something like a secret sign  
Showed me we would never part  
Somewhere you were always mine  
Deep down in your heart

## **Glory Days**

It was the time for me and you  
When all our wishes would come true

Then like a dream it passed away  
So we awoke  
Night followed day

I still recall the way that it was before  
In our glory days  
It makes me want to be there again all the more  
In our glory days

It was the best the world can give  
It was the only way to live

Since we've been groping in the dark  
Missing the light  
Missing the mark

I still recall the way that it was before  
In our glory days  
It makes me want to be there again all the more  
In our glory days

Please understand  
If I'm reserved  
'Cos what we've got  
Is more deserved than not

## **The Long Goodbye**

I know we've been together  
A long long time  
I know I said it was forever  
That you'd be mine

We knew there always was a danger  
Our love would die  
So now we're living here like strangers  
In endless night

Heaven and hell were moved  
Trying to make it happen  
Hoping that things would be improved  
Heaven and hell

No one can ask the reason why  
The long goodbye  
And no one can say we didn't try  
So Here's the long goodbye

Let's try and stay together  
At least as friends  
You know that in the end forever  
Like all things end

Heaven and hell were moved  
Trying to make it happen  
Hoping that things would be improved  
Heaven and hell

No one can ask the reason why  
The long goodbye  
And no one can say we didn't try  
So Here's the long goodbye

Please Don't ask the reason why  
The long goodbye  
'Cos no one can say we didn't try  
So Here's the long goodbye

## **An Impossible Dream**

I'm looking at you  
But I've the feeling you don't care  
I stand before you  
I try to whisper in your ear  
I try to tell you  
But I've the feeling you don't hear

I can't believe it  
I raise my eyes up to the sky  
I calculate it  
I cannot find the reason why  
I think about it  
But while we wait the time goes by

So are the warnings all unheard  
Are we proud before a fall  
Can we hear the spoken word at all?

Try to believe that it's true  
Something is left here for us to redeem  
Something That's long overdue  
Try to believe an impossible dream

I look around me  
It seems to me we've lost our way  
The facts surround me  
we Don't have time left anyway  
Our lives astound me  
But for the past we'll have to pay

So are the warnings all unheard  
Are we proud before a fall  
Can we hear the spoken word at all?

Try to believe that it's true  
Something is left here for us to redeem  
Something That's long overdue  
Try to believe an impossible dream

You can believe that it's true  
Something is left here for us to redeem  
Something that we have to do  
You can achieve an impossible dream

## **Touch Of Heaven**

The lights are all out, we're undercover  
I can't do without you, my tactile lover  
I can't resist you, the way you play me  
I'm gonna miss you, I need you daily  
You're lips are lovely, they move my senses  
You sway above me, I lie defencelessly

I'm in captivity  
Living in ecstasy  
Do what you want to me  
And watch me flying

This is the way to my heart  
And it's a touch of heaven  
You can make love to an art  
And it's a touch of heaven

You give me the squeezze, I'm under pressure  
Your fingers release, a perfect pleasure  
You give my body, the strangest feeling  
You lay upon me, your hands of healing  
You are the goddess, of love eternal  
Your tongue is endless, when used internally

I'm in captivity  
Living in ecstasy  
Do what you want to me  
And watch me flying

This is the way to my heart  
And it's a touch of heaven  
You can make love to an art  
And it's a touch of heaven

I'm in captivity...

## **I Died For You**

I'm watching you now  
The things that you do  
And I send my love from above  
From heaven to you

You know I was living a lie  
That everyone knew  
I knew you were living it too  
So I said goodbye

I lived the best of my life  
The rest of my life  
With you  
I gave the edge of the knife  
The best of my life  
For you

Though I must admit I lied  
My aim was ever steady and true  
I was always yours inside  
And when I died - I died for you

I'm calling you now  
From miles away  
And I hope that somehow you hear  
The things that I say

You know I will always remain  
your servant And friend  
So please don't despair at the end  
'Cos we'll meet again

I lived the best of my life  
The rest of my life  
With you  
I gave the edge of the knife  
The best of my life  
For you

Though I must admit I lied  
My aim was ever steady and true  
I was always yours inside  
And when I died - I died for you

## **On The Other Side**

I used to be the fool  
For everyone in town  
I used to think  
What's not yet up  
Most somehow still be down

But now I know  
That the real world's  
Not necessarily so

Put your life in my hands  
Because we're going for a ride  
And everything appears back to front there  
On the other side

Put your hands in mine now  
Because I'm gonna be your guide  
We only cross a fine line to get there  
On the other side

I used to have a gift  
Of visionary sight  
I used to see  
Through coloured glass  
But now it's black and white

And now I know  
That the real world's  
Not necessarily so

Put your life in my hands  
Because we're going for a ride  
And everthing appears back to front there  
On the other side

Put your hands in mine now  
Because I'm gonna be your guide  
We only cross a fine line to get there  
On the other side

## **Inside out**

Well you came without a sound - And you turned my mind around  
You were playing games with me

So I told you from the start - And I meant it from the heart  
This is not the way for me

Don't you see the things you do, Don't I mean that much to you

Things are not the way they seem - When you're living in a dream  
I am losing my control

I feel left here on the shelf - I can't recognize myself  
You have changed my heart and soul

Don't you see the things you do, Don't I mean that much to you

Inside out - It's all that I can do to scream and to shout  
Inside out - you're the one thing I can't do without

I am angry and confused - And my mind has been abused  
By the things that you have said

I'm not sure what's good or bad - can't decide if I am sad  
Like I'm standing on my head

Don't you see the things you do, Don't I mean that much to you

Inside out - It's all that I can do to scream and to shout  
Inside out - you're the one thing I can't do without

Inside out - 'til you leave me feeling almost devout  
And now I'm inside out - you're the one thing I can't do without

Anyone can see - What you've done to me  
I've been spun about - And turned inside out  
Now I've lost my mind - 'til the end of time  
I've been played about - Now I'm inside out  
Surely you can see - What's become of me  
I've been spun about - And turned inside out  
Now I can't recall - Who I am at all  
I've been played about - Now I'm inside out

## **Afterlife**

Silent memories of you  
Just couldn't be better  
Everything we used to do  
Worked down to the letter

We lived life from day to day  
Only you will understand  
We lived life a special way  
In a wonderland

See you again in the afterlife  
Meet me again when the time is right  
See you again in the afterlife  
I will be waiting for you

When will me two meet again  
In what distant place  
How will you and I feel when  
We are face to face

See you again in the afterlife  
Meet me again when the time is right  
See you again in the afterlife  
I will be waiting for you

Will I see you again  
My friend  
Will we meet again

Will I see you again  
I want to see you again
