

# THE TWINS

*Songbook*

## **I Fell For You**

You chased me with persistence  
You always knew you'd win  
Was only my insistence  
That forced you to give in

Night and day - you followed me  
You called me on the phone  
I never thought - I'd missed your voice  
Until you left me alone

And so I fell for you  
And don't you say you told me so  
Went through hell for you  
And don't you say you told me so

And now I'm showing penitence  
I'm living in the past  
I laughed at your self-confidence  
But now you're laughing last

Night and day - you followed me  
you called me on the phone  
I never thought - I'd missed your voice  
Until you left me alone

And so I fell for you  
And don't you say you told me so  
Went through hell for you  
And don't you say you told me so

## **The Game Of Chance**

If there's trouble in paradise  
you don't believe that it will hurt you  
The lines in the book and the lines on your face  
Are fragments in a cosmic puzzle

Everything is covered by a veil of secrecy  
But there's always someone who believes in destiny

My secret's a secret and will always be  
I haven't got the heart to tell you  
I lie to your face while you're lying with me  
You never even guess the danger

Everything is covered by a veil of secrecy  
But there's always someone who believes in destiny

You see me - You see me laugh  
The puppets dance - And no one knows  
About the game of chance

How do you feel when the night closes in  
Are you frightened by the darkness  
Where's the solution that lulls you to sleep  
If the deep of night is endless

Everything is covered by a veil of secrecy  
But there's always someone who believes in destiny

You see me - You see me laugh  
The puppets dance - And no one knows  
About the game of chance

Everything is covered by a veil of secrecy  
But there's always someone who believes in destiny

This is joke that nobody knows  
it's a gift to the present  
it's made for the future  
it's a precious joke  
it's all I own

## **In My Broken Dream**

And so it's over - this time it's for real  
Because I know - it's our destiny  
And now I feel what a man alone must feel  
Give her back to me

I had a dream - asked you to stay  
You shook your head - and turned away  
You broke my dream - when you came today  
You said goodbye - and turned away

The judgement's final - no right of appeal  
You leave the court - I'm the detainee  
And I now feel what a man alone must feel  
Give her back to me

In my broken dream  
In a sweat-soaked bed  
In my broken dream  
I am left for dead

The play's been played - they drop the curtain  
I ask the question - to be or not to be  
I heard her speech - and now I'm left here hurting  
Give her back to me

I had a dream - asked you to stay  
You shook your head - and turned away  
You broke my dream - when you came today  
You said goodbye - and turned away

In my broken dream  
In a sweat-soaked bed  
In my broken dream  
I am left for dead

## **Until The End Of Time**

Monday - it's 8 o'clock  
Time ticks - 'cos time can't stop  
All's well - but one thing's changed  
Nothing - will ever be the same

You said that you'd never leave  
I think that you lied to me  
We would be one through the years  
Your words still ring in my ears

I'm yours and you are mine  
Until the end of time

I watch - the minute hand  
And try - to understand  
And I - exert my will  
But time - will not stand still

You said that you'd never leave  
I think that you lied to me  
We would be one through the years  
Your words still ring in my ears

I'm yours and you are mine  
Until the end of lime  
I'm yours and you are mine  
Until the end of time

## **I Need You**

I thought that you should go  
What were you worth to me  
I thought I'd find another girl  
As soon as I was free

But then I saw you and I nearly died  
Standing in the arms of mister nice  
So finally he'd got you - it all became so clear  
Your lips were nearly touching - it was more than I could bear

I need you  
I need you and I need to know you're mine  
I need you  
I need you like the lyric needs a line

I knew that you loved me  
I didn't feel the same  
While you were being true to me  
I was playing games

But then I saw you and nearly died  
Standing in the arms of mister nice  
So finally he'd got you - it all became so clear  
Your lips were nearly touching - it was more than I could bear

I need you  
I need you and I need to know you're mine  
I need you  
I need you like the lyric needs a line

## **Love In The Dark**

When I found you I was swept away  
by tidal waves of passion  
Like a sailor drinking rum  
beyond the limits of his ration

I'm all at sea and  
I'm lost like a vessel with no course  
I can't see through the night  
and the winds are gale force

The ship sails on  
and you are sleeping down below  
Now you're in the hold  
I'll never let you go  
(I'll never let you go)

Love in the dark  
In the middle of the ocean  
Love in the dark  
In the storm of our emotion

I don't need to know the time of day  
or night or our direction  
Only one thing justifies itself  
and that is our affection

We don't look out for the signs  
that the current ebbs and flows  
And we live in a nest  
made for love and not for crows

The ship sails on  
And you are sleeping down below  
Now you're in the hold  
I'll never let you go  
(I'll never let you go)

Love in the dark  
In the middle of the ocean  
Love in the dark  
In the storm of our emotion

## Deep Within My Heart

I regard myself with deep suspicion  
I feel my beating heart, feels no contrition  
Guilt is a dirty word that no one likes to hear  
But nothing can hope to tread, where even angels fear

I've a feeling deep within my heart  
there's no feeling deep within my heart  
it's an act in keeping with my part  
there's no feeling deep within my heart

I believe I see whatever I believe  
The greatest power of mind is the power to deceive  
Love is a dirty word if you're not in love  
Heaven is meaningless if there's nothing up above

I've a feeling deep within my heart  
there's no feeling deep within my heart  
it's an act in keeping with my part  
there's no feeling deep within my heart

I know I said I need you  
And that my heart was dying  
I should have told you then  
That I was lying

I've a feeling deep within my heart  
there's no feeling deep within my heart  
it's an act in keeping with my part  
there's no feeling deep within my heart

## **Fantasy**

You stumble through life  
Blind to what's around  
Like the men of gold  
With noses to the ground

Seeing - the other view  
Believing - in something new  
Knowing - just what to do  
Rejoicing - when I'm with you

Fantasy  
it's the one thing I feel  
Fantasy  
it's the one thing that's real

Don't forget that life  
Isn't just a game  
it's as grave as death  
In everything but name

Seeing - the other view  
Believing - in something new  
Knowing - just what to do  
Rejoicing - when I'm with you

Fantasy  
it's the one thing I feel  
Fantasy  
it's the one thing that's real

All you need - is some fantasy  
Fired by passion - for harmony  
All we need - is some fantasy  
Living without it - is empty and grey

## Talk To Me

I saw you on the corner  
from the corner of my eye  
And you were looking at me  
as I was passing by  
We didn't know each other  
and we didn't really care  
Only one thing mattered  
so we stopped and stood and stared

I knew that you could see me  
and you knew that I saw you  
And yet we still pretended  
that it wasn't true  
Everything went hazy  
and the world was standing still  
How could I get the courage  
to go in for the kill

Talk to me - I've been waiting much too long  
Talk to me - And time is running on  
Walk to me - It's not so far to go  
Talk to me - Just come and say hello

Everybody's watching  
and everybody knows  
We've got to make a move now  
before the moment goes  
No time for hesitation  
it's something that can't wait  
We have to get together  
before it is too late

Talk to me - I've been waiting much too long  
Talk to me - And time is running on  
Walk to me - It's not so far to go  
Talk to me - Just come and say hello

## **The Time Lords**

All the world looks up to you and prays  
You're the stars here  
You're the future gods that show the way  
Your time is so near

Don't hesitate a moment, don't look back  
There's no returning  
All systems go and ready for attack  
All rockets burning

You've been waiting for your chance  
To change the future of mankind  
It's the dream of man's advance  
Leaving planet earth behind

You are the time lords, you are the time lords  
You're flying forwards through outer space  
You are the time lords, you are the time lords  
You are the saviours of the human race

The end is nigh and time is running out  
And you've just started  
But man has had a dream to dream about  
Since you departed

## **The Golden Ring**

Night time - the sky was black  
Dark streets - and no way back  
Heard a sound - and I stopped dead  
In my tracks

Looked around - she turned her head  
Had to go - where she led  
We walked - She took my hand  
And she said

Take this golden ring  
Never loose this golden ring  
Take this golden ring  
'til I come back again

She said - the ring is strong  
I blinked - and she was gone  
She said - she would return  
it won't be long

Take this golden ring  
Never loose this golden ring  
Take this golden ring  
'til I come back again
